**Plaintiff Exhibit BB**

Attached is the most relevant hacking of email; with unifying IP address 70.59.126.254

Plaintiff sent an e-mail to the NYC FBI – address confirmed as correct by the FBI in Washington, D.C.

The exact next day plaintiff received a reply email allegedly from that same FBI address [#1 below], but which neither originated in New York City nor with the FBI. Plaintiff's contact was monitored and the FBI return address is a clone.

The return path of the FBI's "CLONE" "response" leads to an IP address in the United Kingdom (Britain), which then goes to Chicago. Full "trace path", with all IP address "pings" is included. LR-Joe CLONE and Bill NH CLONE also lead to Chicago.

There is no 2004 tape recorded conversation between Plaintiff and her provider, still plaintiff is trying to acquiring relevant evidence – the report of the incident. It appears that the 2004 access was either never cured or the hacker/s found a work-around as access persists to this day. Though plaintiff did not know to preserve the 2004 emails which originally alerted her to the hacking of her email; complete with its password, she was since rehacked as she was cloned, which means the hacker also obtained her new password.

Additional is a sufficient degree of additional evidence that hacking and then cloning extends to those in plaintiff's computer address book, which individuals are spread both far and wide; have had their own accounts hacked, compromised and cloned. These individuals have absolutely no connection to each other except through plaintiff.
